REMEMBER
AMPEX AUCTION- OCT. 11
VOLUNTEER FOR ACTION!

Shack of the Month Club

Starting with the October issue of *PAARAgaphs*, there will be a new feature in the journal, "The Shack of the Month". This feature will have a picture of a member's operating position, a brief description of special features, and an explanation of why the shack is assembled in the fashion it is.

The purpose of this new section is to familiarize newer hams with the basics of ham shack assembly and to expose more experienced amateurs to alternative designs and innovations in function, aesthetics, and, of course, safety.

One shack will be shown per month in the "Shack of the Month Club" section. We would enjoy seeing your shack or operating position. When submitting information about your shack here are what guidelines to follow:

1. Include at least one black-and-white picture of your shack not exceeding four inches in width or eleven inches in length (4" X 11").

2. Include a written description telling anything you feel is important or unique about your shack. Please explain why your operating position is arranged the way it is. Length is not critical but don't neglect detail for the sake of succinctness.

3. Don't forget to identify yourself (by name and station callsign) and include a S.A.S.E. if you would like your photo returned.

Tnx,
de KB6BPM

A Note from the Editor

After two years of service as the editor of this publication Editor Robert Taylor, KA6NAN, has decided to resign his post. As Associate Editor of *PAARAgaphs* I am naturally sad to see Rob leave. As of this issue I am now the Editor-in-Chief of this journal and am responsible for the intake and assembly of information pertinent to the amateur radio service.

This, of course, creates certain problems for me. I am a full-time student with an extremely heavy class load and, therefore, what little free time I have is at an extreme premium. I can not myself generate enough quality information to adequately fill this publication every month.

I need desperate help from the members of PAARA and anyone else willing to produce material for publication. The submission of articles is the key to the success of this newsletter and to the continuing education of the amateur community. The length of the item doesn't matter; it only must be in some way relevant to amateur radio or electronics in general.

I also need someone to take the position of Associate Editor which I have recently vacated. Of course anyone who volunteers to help will not be "stuck with" the job for eternity! All I need is a permanent supply of temporary help. I hope you all will be proud of *PAARAgaphs* and will help to make it something to be proud of. Thanks for your support.

de KB6BPM,
Editor-in-Chief Kenneth S. Dueker
